Q&A

- Q How the EMS/RF warm mode run?**
A Under EMS/RF mode, the micro electric current will be transmitted into skin, but won't produce vibration. Here will be short and light stimulation with gentle warm.
- Q Could I use it every day?**
A Even though this device brings an excellent cosmetological effect, frequent usage of this device might burden the skin. Therefore, to reach the best result, we recommend using it no more than 3 times a week.
- Q Must use beauty liquid ?**
A Toning lotion and cosmetic gel work the same. We strongly recommend our own beauty essence.
- Q What is the 3D head made of?**
A On the surface of the 3D head (the part touching the skin), the titanium and 24-karat gold-plated. Not rust, Resistant to scratches, Corrosion-free. You can expect beautiful skin effect.
- Q Why the time is always 10min during usage without backward count?**
A The time will be resumed once you press any function button to 10min. So please do not press the other button when using.
- Q Weak light (display, LED)**
A Maybe need charge.
